- Principals have average tenure of 21+ years
- Focus on providing high quality investments to clients
- \$18.8 billion in AUS¹ | \$13.0 billion AUM

Cambiar Investors, LLC (Cambiar) is an independent registered investment adviser with the United States Securities and Exchange Commission. Cambiar claims compliance with the Global Investment Performance Standards (GIPS®).

Cambiar's International Equity Composite includes taxable and tax-exempt portfolios valued at \$1,000,000 or greater, whose records are maintained on Cambiar's systems. Portfolios in the composite invest in equity securities of foreign companies. Cambiar's International Equity Composite primarily invests in stocks with a market capitalization range above \$5 billion. The typical number of securities in the International Equity portfolio is 40-50 holdings.

Returns are presented gross (g) and net (n) of management fees. Gross and net returns have been reduced by transaction expenses. Net returns are also reduced by actual investment advisory fees and other expenses that may be incurred in the management of the account. Net of fees performance reflects a blended fee schedule of all accounts within the International Equity Composite. Cambiar clients and mutual fund investors may incur actual fee rates that are greater or less than the rate reflected in this performance summary. Results are presented in U.S. dollars.

Performance results for the International Equity Composite are evaluated against the MSCI EAFE Index. The MSCI EAFE Index (Europe, Australasia, Far East) is a free float-adjusted, market capitalization weighted index that is designed to measure developed market equity performance, excluding the U.S. & Canada. The index assumes no management, custody, transaction or other expenses. The MSCI EAFE Index is a broadly based index that reflects the overall market performance and Cambiar's returns may not be correlated to the index. The index is unmanaged and one cannot invest directly in an index. Cambiar's performance and the performance of the MSCI EAFE Index include the reinvestment of all income. Benchmark returns are net of withholding taxes. Cambiar typically follows each custodian's treatment of tax withholding and therefore dividends may be presented as gross or net of dividend tax withholding depending on the custodian's treatment. Withholding taxes may vary according to the investor's domicile.

Data is provided for a representative account as of September 30, 2018. Portfolio holdings, characteristics, country breakdown, and sector weightings may change over time and may differ between clients based upon their investment objectives, financial situations and risk tolerances. Cambiar makes no warranty, either express or implied, that the weightings shown will be used to manage your account. The securities presented do not represent all securities recommended for advisory clients. The information provided on this page should not be considered a recommendation to purchase or sell any particular security. There can be no assurance that an investor will earn a profit or not lose money. The one year forecast is included for illustrative purposes and accordingly, no assumptions or comparisons should be made based upon these ratios. Active share is a holdings-based measure of active management representing the percentage of securities in a portfolio that differ from those in the benchmark index. The projected ratios, risk statistics, and country allocations are based upon third party sources that are deemed to be reliable; however, Cambiar does not guarantee its accuracy or completeness. Risk statistics are based off a five year time frame.

¹AUS (assets under supervision) includes UMA/model portfolios that are non-discretionary assets. AUS and AUM are preliminary.
