- \$15.5 billion in AUS¹ | \$10.5 billion in AUM

Cambiar Investors, LLC (Cambiar) is an independent registered investment adviser with the United States Securities and Exchange Commission. Cambiar claims compliance with the Global Investment Performance Standards (GIPS[®]).

Cambiar's Small Cap Value Composite (Institutional) includes taxable and tax-exempt, institutional and individual portfolios that allow Cambiar to direct trades to any broker valued at \$1,000,000 or greater, whose records are maintained on Cambiar's systems. Portfolios in the composite invest in equity securities of small-cap companies. Cambiar's Small Cap Value Composite (Institutional) includes portfolios that primarily invest in stocks with a market capitalization range between \$500 million and \$5 billion. The typical number of securities in the small cap value portfolio is 45-55 holdings. From 2004 to December 31, 2013, the composite included SMA portfolios (portfolios with bundled fees) and other directed brokerage portfolios. Prior to 2014, the minimum asset level for the composite was \$100,000. For the periods of 2004 through December 31, 2013, the performance presented reflects the actual performance of the Cambiar Small Cap Value Composite, which contains portfolios with investment objectives, policies, techniques and restrictions substantially similar to that of the Small Cap Value Composite (Institutional).

Returns are presented gross (g) and net (n) of management fees. Gross and net returns are reduced by transaction expenses. Net returns are also reduced by actual investment advisory fees and other expenses that may be incurred in the management of the account. Prior to 2014, the gross returns reflect accounts with both gross and "pure" gross performance. From 2014 to present, the composite contains accounts with only gross performance. "Pure" gross returns, applicable to SMA portfolios, are not reduced by any expenses, which includes transaction costs, and are provided as supplemental information. Brokerage firms which sponsor SMA fee programs apply bundled fees which may include transactions costs, investment management, portfolio monitoring, consulting services, and in some cases, custodial service fees. Net returns for SMA portfolios are calculated by subtracting actual SMA fees reported by the SMA sponsor. Net of fees performance reflects a blended fee schedule of all accounts within the Small Cap Value Composite (Institutional). Cambiar clients and mutual fund investors may incur actual fee rates that are greater or less than the rate reflected in this performance summary. Results are reported in U.S. dollars.

Performance results for the Small Cap Value Composite (Institutional) are evaluated against the Russell 2000[®] Value Index. The Russell 2000[®] Value Index is a float-adjusted, market capitalization weighted index comprised of firms in the Russell 2000[®] Index that experience lower price-to-book ratios and lower forecasted growth values. The Russell 2000[®] Index is a float-adjusted, market capitalization weighted index that measures the performance of the 2,000 smallest companies in the Russell 3000[®] Index, which consists of 3,000 of the largest U.S. equities. The index assumes no management, custody, transaction or other expenses. The Russell 2000 Value Index is a broadly based index that reflects the overall market performance and Cambiar's returns may not be correlated to the index. The index is unmanaged and one cannot invest directly in an index. Cambiar's performance and the performance of the Russell 2000 Value Index include the reinvestment of all income.

Data is provided for a representative account as of December 31, 2018. Portfolio holdings, characteristics and sector weightings may change over time and may differ between clients based upon their investment objectives, financial situations and risk tolerances. Cambiar makes no warranty, either express or implied, that the weightings shown will be used to manage your account. The securities presented do not represent all securities recommended for advisory clients. The information provided on this page should not be considered a recommendation to purchase or sell any particular security. There can be no assurance that an investor will earn a profit or not lose money. The one year forecast is included for illustrative purposes and accordingly, no assumptions or comparisons should be made based upon these ratios. Active share is a holdings-based measure of active management representing the percentage of securities in a portfolio that differ from those in the benchmark index. The projected ratios and risk statistics are based upon third party sources that are deemed to be reliable; however, Cambiar does not guarantee its accuracy or completeness. Risk statistics are based off a five year time frame

¹AUS (assets under supervision) includes UMA/model portfolios that are non-discretionary assets. AUS and AUM are preliminary.
