- \$8.9 billion in AUS¹ | \$6.0 billion in AUM

Cambiar Investors, LLC (Cambiar) is an independent registered investment adviser with the United States Securities and Exchange Commission. Cambiar claims compliance with the Global Investment Performance Standards (GIPS®).

Cambiar's International Equity Composite includes discretionary, taxable and tax-exempt portfolios. The records of the portfolios in the composite are maintained on Cambiar's systems. Portfolios in the composite invest predominantly in equity securities traded on foreign exchanges. Cambiar's International Equity Composite primarily invests in stocks with a market capitalization range greater than \$5 billion. The typical number of securities in the International Equity portfolio is 40-50 holdings. As of April 2020, there is no minimum asset level for the composite. Prior to April 2020, the minimum asset level for the composite was \$1,000,000.

Returns are presented gross (g) and net (n) of management fees. Gross and net returns have been reduced by transaction expenses. Net returns are also reduced by actual investment advisory fees and other expenses that may be incurred in the management of the account. Net of fees performance reflects a blended fee schedule of all accounts within the International Equity Composite. Cambiar clients and mutual fund investors may incur actual fee rates that are greater or less than the rate reflected in this performance summary. Results are presented in U.S. dollars.

Performance results for the International Equity Composite are evaluated against the MSCI EAFE Index. The MSCI EAFE Index (Europe, Australasia, Far East) is a free float-adjusted, market capitalization weighted index that is designed to measure developed market equity performance, excluding the U.S. & Canada. The index assumes no management, custody, transaction or other expenses. The MSCI EAFE Index is a broadly based index that reflects the overall market performance and Cambiar's returns may not be correlated to the index. The index is unmanaged and one cannot invest directly in an index. Cambiar's performance and the performance of the MSCI EAFE Index include the reinvestment of all income. Benchmark returns are net of withholding taxes. Prior to July 2019, Cambiar typically followed each custodian's treatment of tax withholding and therefore dividends may have been presented as gross or net of dividend tax withholding depending on the custodian's treatment. As of July 2019, Cambiar typically records dividends net of withholding taxes although it may depend on various factors such as the issue country and custodian's treatment. Withholding taxes may vary according to the investor's domicile, and other reasons.

Data is provided for a representative account as of June 30, 2020. Portfolio holdings, characteristics, country breakdown, and sector weightings may change over time and may differ between clients based upon their investment objectives, financial situations and risk tolerances. Cambiar makes no warranty, either express or implied, that the weightings shown will be used to manage your account. The securities presented do not represent all securities recommended for advisory clients. The information provided on this page should not be considered a recommendation to purchase or sell any particular security. There can be no assurance that an investor will earn a profit or not lose money. The one year forecast is included for illustrative purposes and accordingly, no assumptions or comparisons should be made based upon these ratios. Active share is a holdings-based measure of active management representing the percentage of securities in a portfolio that differ from those in the benchmark index. The projected ratios, risk statistics, and country allocations are based upon third party sources that are deemed to be reliable; however, Cambiar does not guarantee its accuracy or completeness. Risk statistics are based off a five year time frame.

¹AUS (assets under supervision) includes UMA/model portfolios that are non-discretionary assets. AUS and AUM are preliminary.
